DAY 1

WELCOME

Thank you for joining the Camp Dreamtree Spring Break Experience! Over the next five days, you will travel to the parallel universe known as Crystal Burn with Evan, Izimbira, and their friends to become an honorary DreamScout.

Filled with adventurous activities for families and campers of all ages and scout ranks, the Camp Dreamtree Spring Break Experience is a virtual art camp that offers your very own DreamScout Kit, online videos and downloadables, augmented reality (AR) interaction, and a live Jamboree!

Camp Dreamtree is all about living in the present moment, being kind to those around you, and practicing respect for wonder. It is through wonder that we see the world with curiosity, and it is through respect for wonder that we see ourselves as part of this world—small, but part of the whole.

To begin your adventure, watch the Camp Dreamtree welcome video: [ScottsdaleArtsLearning.org/camp-dreamtree-spring-break-experience](https://scottsdaleartslearning.org/camp-dreamtree-spring-break-experience).

DAY 2

AUGMENTED REALITY

What is augmented reality? Augmented reality allows you to see the natural environment with a digital overlay using your device's camera. You will be able to "see" Izimbira and her friends sharing stories, go on a virtual tour of Camp Dreamtree, and discover hidden animations.

How do I use it? Using your mobile device's camera, scan the QR code below to access your app store and follow the instructions to install the Hoverlay camera browser app. In the app, use the QR code or search for the *ScottsdalePublicArt* channel to unlock these experiences at home.

In your DreamScout Kit, you will find six Camp Cards with special symbols. Use your Hoverlay app to scan those symbols each day of camp to bring the world of Crystal Burn into your very own living room!

Share your experience! The Hoverlay app allows you to take photos and video of your augmented reality experience directly within the app. Use #CampDreamtree and #ScottsdaleArts when sharing your experiences on social media and tagging our social media accounts.

Need more help? Visit the FAQ page: [ScottsdalePublicArt.org/augmented-reality-faq](https://scottsdalepublicart.org/augmented-reality-faq)

The Hoverlay app requires an augmented reality-capable device running iOS 13 or later or Android 7.0 or later.
